Client Ref. No. Div of 09/787668/JL/ln
U.S. Patent Application for: PROCESS FOR PRODUCING MIDDLE DISTILLATES

Dear Janusz:

Thank you for your e-mail of October 3, 2003, regarding the above-identified patent application. As instructed, we prepared and filed a Divisional application with the U.S. Patent and Trademark Office on November 12, 2003. With confirmation copy of this letter we enclose a copy of the documents we filed. The formal notice of filing will be forwarded to you when we receive it. The application will be taken up for examination in its regular order, and we will keep you advised.

As you know, there is a continuing duty of disclosure in the United States. Consequently, if you or your client are aware of any prior art worldwide or any public uses or sales or offers for sales in the United States prior to the priority date, please provide us appropriate information so that an Information Disclosure Statement can be filed.

We also prepared and filed an Information Disclosure Statement based on the references cited in the specification and International Search Report. A copy of the IDS, as filed, is enclosed for your records. We were not, however, able to locate two references cited in the specification. Please provide us with the relevant portions of the CARB (California Air Resources Board 1993 Specification) as well as a copy of pages 265-278 of the **Catalysis Reviews: Science and Engineering** (vol. 23, no. 1 & 2) so that we may file a Supplemental IDS.
